But it takes a lot more than just political support to make Taste of Soul the “Ultimate Block Party.” It takes action, it takes work and it takes corporate support as well. Then there is our Supervisor, Mark Ridley Thomas. Mark has been a supporter of Taste of Soul from day one, he is one of the rare politicians who like me would rather walk the streets than just view it from the stage. He wants to speak with the people, buy directly from the vendors, listen to the music from the audience. In essence Mark comes out to “Feel The Love.”

The Love
